

The commercial license for Star Keeper's Branch Game

1. Definitions

- 1.0 **"Star Keeper"** A NES Homebrew game developed by 87Arts and released on the NintendoAge game forum in 2014.
- 1.1 **"Mainline Game"** refers to the original work of the Star Keeper series and the official or officially authorized sequels. All sequels with a numbered designation are considered mainline versions, such as Star Keeper 2, Star Keeper 3, and in this protocol, the root version Star Keeper is the mainline version. In other words, within this agreement, the Mainline Game refers to the core works of the Star Keeper series, including the original version and all official or officially authorized sequels.
- 1.2 **"Branch Game"** The term refers to an additional version of the Mainline Game that is developed using resources from the Mainline Game or other sources and bears the Mainline Game's name with a subtitle. The name is composed of the mainline version's title "Star Keeper" and the subtitle, such as "Star Keeper - guardian of heaven", "Star Keeper - sun city", and so on. It should be noted that in this agreement, the mainline version name of all Branch Games must be "Star Keeper", not other versions such as the unreleased "Star Keeper 2" or "Star Keeper (N)".
- 1.1 **"Authorized NFT"** NFTs minted for the authorization of the Branch Games of the Mainline game (StarKeeper). The owner of this NFT will be granted limited permission to develop and sell Branch Games, as described in section 2.
- 1.2 **"NFT Owner(s)"** refers to an individual or entity who has purchased an Authorized NFT and has placed it in their actual control Chia DID NFT wallet. The Chia DID NFT wallet is a decentralized identity verification system based on the Chia blockchain, which can be used to store and manage NFTs as well as other digital assets. Therefore, if a person has already purchased an Authorized NFT and placed it in their actual control Chia DID NFT wallet, then they are the owner of that NFT and can transfer or trade it to others in the future.
- 1.3 **"Chia Offers"** means buying, selling or trading Chia NFTs via the Offers feature that allows buyers and sellers to seamlessly create and accept trade offers all from the privacy

of their Chia wallet. Offers allow two people who have never met to propose and complete a trade in a way that neither side can cheat and does not need escrow.

- 1.4 **“Own”** or **“Owned”** means a Chia NFT that
 - (a) you originally purchased/received from 87Arts or from an NFT Marketplace;
 - or(b) purchased/received on an NFT Marketplace from a legitimate owner of that Authorized NFT;
 - or(c)purchased/received through Chia Offers from a legitimate owner of that Authorized NFT.
- 1.5 **“Third Party IP”** means any third-party copyrights, trademarks, patent rights (including, without limitation, patent applications and disclosures), trade secrets, know-how or any other intellectual property rights recognized in any country or jurisdiction in the world.
- 1.8 **“You”** NFT Owner
- 1.9 **“NFT #1” – “NFT #10”** Authorized NFT #1-#10
